

Website Information

We believe the World Wide Web can be a great vehicle for informing others about GSS and a valuable tool for helping to educate our children.

Our first concern in using the WWW is for the safety and well being of our children. Therefore, we do not publish the children's pictures with their full names nor will you find a roster of student enrollment.

As our site matures, you will find a remarkable record of our children's work and accomplishments.

We value your input. If you have questions about our site or comments/suggestions about its content, contact GSS at the "Contact Us" area of this site.
